By listening and working with you we have developed this cutting system to simplify your job and increase your profits. The M1 Cutting System\* will save the most valuable resource of all, ***your time***, which is the one thing you can't buy more of.

## ***The M1 Cutting System\* is just easier!***

### ***Changing teeth doesn't get any simpler:***

- No rights, lefts, straights, or pockets and only one tool is required. Using our patent pending direct mount design makes changing teeth faster and easier.

### ***Faster Clean-up:***

- The M1 Cutting System includes the first ever chip deflector which will help to keep chips within the width of the machine. This makes for quicker clean up and less time on the job.

### ***Ordering is as easy as one:***

- Eliminates the guess work of ordering multiple parts, as you only need one type of tooth.

\* Patent Pending
